PROFILE

I am a creative and ambitious Frontend Developer with experience in building dynamic and responsive web applications. Proficient in modern JavaScript frameworks like React and Next.js, with a strong background in HTML, CSS (Tailwind, Styled components, etc), and JavaScript/TypeScript. I have experience with state management libraries like Redux, MobX, etc., API integrations, and UI performance optimization. I deliver clean, maintainable code while working to improve user experiences through intuitive design.

SKILLS

- HTML5
- **CSS3** (SASS/SCSS)
- JavaScript (ES6+)
- Typescript
- React JS/ Next JS

- Materia UI/ShadCN/Styled Components
- Data fetching (React Query/TanStack)
- API integration (REST, GraphQL)
- State management (Redux, MobX)
- Cross-Browser Compatibility

- Testing / Debugging
- CI/CD
- Version Control (e.g., Git, GitHub)
- Build tools (WebPack, Babel)
- Agile/Scrum Methodologies

EXPERIENCE

FRONTEND DEVELOPER | QUDRA TECHNOLOGIES | JUNE 2024 – PRESENT

- Develop and implement custom web applications for clients using React.js and Next.js, ensuring responsive and scalable solutions, managing all frontend aspects independently.
- Collaborate with cross-functional teams and clients to gather requirements, provide technical insights, and deliver tailored solutions.
- Optimize application performance, resolve technical issues, and enhance user experience with faster load times.
- Manage project timelines and deliverables, coordinating effectively to meet client goals and deadlines.

FRONTEND DEVELOPER | AJEOBA AGRO - EXCHANGE | APRIL 2023 – APRIL 2024

- Engineered responsive web and e-commerce applications with React.js, achieving a 40% reduction in page load time and a 35% boost in user engagement.
- Built reusable, scalable components to enhance code efficiency and maintainability and API integrations and collaborated with cross-functional teams to ensure seamless functionality.
- Enhanced front-end performance and optimized cross-browser/device compatibility for an improved user experience.
- Led code reviews and participated in agile processes to drive continuous product improvement.

PROJECTS

- **AnikeSalubata**: A comprehensive e-commerce shoe website, enabling users to select sizes, add to cart, remove items. Implemented user authentication features. Built with React, Material-UI, Firebase, localStorage, and Context API.
- **Lendsqr**: A responsive Next.js application with TypeScript featuring authentication, Dashboard, User, and User Details pages. Implemented search and filter functionalities, data retrieval from an API, and local storage for data management.

- **Tech Care**: A single-page application displaying patient or customer health information fetched from an endpoint. Developed with React.js for frontend functionality, Tailwind CSS for styling, and Charts for data visualization.
- **Spotify Clone**: A design-focused project emulating the Spotify web app, emphasizing design and responsiveness rather than functionality. The clone replicates Spotify's colors and images, built using React and Tailwind CSS.
- **Others**: Guesses, Scissors.

EDUCATION

DIPLOMA IN FRONTEND ENGINEERING |DECEMBER 2022 | ALTSCHOOL AFRICA.

BACHELOR OF SCIENCE | JULY 2023 | OBAFEMI AWOLOWO UNIVERSITY, NIGERIA.
